WASHINGTON, June 9 .- By the decisive vote of 42 to 19 the senate yesterday adopted an amendment to the tariff bill placing raw cotton, the great product of the south, on the dutiable list at 20 per cent ad valorem. It is the first time in the history of tariff legislation that a duty on cotton has been incorporated in a bill. The amendment was proposed by Mr. Bacon (Dem., Ga.) on his individual responsibility and without the approval of the finance committee, which thus far has been requisite to the success of every amendment except a minor one which went through by de-

The wife of Ruiz has filed with advice and consent of the national comthe department a claim for \$150,000 for

the death of her husband. General Lee's inquiry leaves the case resting on the broad claim that in confining Dr. Ruiz for more than 72 hours, without permitting him to communicate with his friends or trying him, the Spanish officials in Cuba have assumed full responsibility for results of that ex- srry to complete such organizations. tra confinement. The fact being established that Dr. Ruiz kept up his citizenship by registering himself at American consulates in Cuba from time to time, as required by regulations, is taken as an offset against the claim that by continuous residence in Cuba for nearly 20 years he had forfeited his rights as an American citizen. The next step in the case will be the presentation of a claim against the Spanish government in behalf of the victim's family for illegal im-

prisonment. SPANISH MISSION.

Madrid, June 9.—The ebullitions of the Liberals and dissident Conservatives does not abate, but the leaders are doing their best to check the agitation in favor of demonstrations against the crown, because of the decision in behalf of Senor Canovas. The Conservatives are confident that the excitement will subside when the public recognizes how serious would be the disadvantages of a sudden change of policy, and that the immediate recall of Captain General Weyler would paralyze operations in Cuba until his successor could have time to develop a new plan.

URBANA, O., June 9.-In an interview yesterday Sheriff McLain made an acknowledgement which should settle all the talk about Mayor Gansen impersonating him on the morning of the lynching and ordering the Springfield company of militia to return home. The sheriff said that Captain Bradbury had reported to him on his arrival here with his company and they both came to the conclusion that the combined force of the two companies could not hold the jail against the mob and they would not

undertake it. Then Sheriff McLain ordered the Springfield company to move away from the jail. Some of the leaders of the mob had got into the jail and were threatening to hang him if he allowed the militia to remain.

PEACE NEGOTIATIONS.

flow Progress Being Made by Representatives of the Powers. LONDON, June 9 .- The peace negotiations do not seem to make much progress and there was considerable disquietude in Athens last night, caused by the apparently reliable statement that the negotiations were in danger of collapsing all together. The ministers who were questioned on the subject, however, had no definite news of an official character the influence of a and expressed the opinion that the re-

port was without foundation. It is said on good authorities that the powers are now trying to induce Turkey to sign general peace conditions defining broad limits within which Turkey and Greece should afterward settle details by direct negotiations.

This news is regarded at Athens with dismay, as a breach of faith on the part of the powers and as leaving Greece to the tender mercies of the sultan. It is believed by many good judges at Athens that Greece may yet have to fight for her existence. Moody, in the June Ladies Home Journal, "is the common delusion that a woman can best reform a man by marrying him. It is a mystery to me how people can be so blinded to the hundreds of cases in every community where tottering homes have fallen and innocent lives have been wrecked, be cause some young girl has persisted in marrying a scoundral in the hope of saving him. I have seen hundreds of them result in anything but sadness and disaster. Let no young girl think that she may be able to accomplish what a loving mother or sympathetic sisters have been unable to do. John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most accommodate all members of this great substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By haintaining the price of the paper, more news and greater variety can be furnished, and every class of business. interests catered to, which a cheaper the order, but the public genarally may burnal cannot afford.

Marrying a Man to Reform Him. The most subtle and deceitful hope which ever existed, and one which wrecks the happiness of many a young girl's life," writes Evangelist Dwight L. Moody, in the June Ladies Home Journal, "is the common delusion that a woman can best reform a man by marrying him. It is a mystery to me how people can be so blinded to the hundreds of cases in every community where tottering homes have fallen and marrying a scoundral in the hope of saving him. I have seen hundreds of them result in anything but sadness and disaster.
